Introduction:

New Ramkrishna Seva Sadan is the premier Nursing Home of Siliguri dedicated for care of Gynaecological, Maternity, Neonatal & Paediatric, Orthopaedic, General Surgeries (Laparoscopic) and, patients of various other ailments.

Headed by eminent gynaecologist, Dr. G. B. Das, MD, FICOG, FICS this institution has reputation for treatment of all gynaecological and obstetric cases. Equipped with ultra-modern machinery and infrastructure, New Ramkrishna Seva Sadan is located at the centre of Siliguri at Pakurtala More, Nazrul Sarani, Ashram Para, 200 metres east of Gurudwara, Sevoke Road.

This multi speciality nursing home has 45 beds along with sharing and private cabins; fully equipped 15 N.I.C.U. beds, sophisticated O.T. with C-Arm X ray, ultra modern laparoscopic unit, multi-para monitors for gynaecological, general and orthopaedic surgeries. Sterilisation by automatic powerful autoclave provides surgeons germfree instrument for operation. Central oxygen and gas supply facilitates use of life saving aid such as ventilators and c-pap.

Patient safety is our prime concern. Prior to delivery, labour patients are monitored by multi-para monitors, and foetus is continuously monitored by highly sophisticated foetal doppler to know heart beat of the foetus. Every need of a mother and child can be met at our nursing home in an atmosphere and ambience that is comfortable, warm and soothing to mind and body. Patient shall experience a combination of hospitality and quality health care at an affordable cost.

Treatment for infertile couple and of high risk pregnancy has always been a priority for us making this nursing home a leading centre for infertility and assisted reproduction.

Headed by Prof. Dr. Benu Gopal Das, MS, Orthopaedic Surgeon and Traumatologist, a team of dedicated orthopaedic doctors are always available to render service for cases related to trauma and orthopaedics including surgeries of accidental cases.

General surgery is our another expertise. Surgeries of oesophagus, stomach, gallbladder, colon, and hernia are performed here successfully for years. Eminent, experienced surgeons like Dr. Sailaja Gupta, MS, Dr. Rajashree Guha, MS, Dr. Ranjan Paul Choudhury, MS, have been doing complication-free Laparoscopic cholecystectomy-removal of gall bladder stone by keyhole Surgery with affordable charge. Package are available for both general bed & cabin.

Neonatal care is our main focus. with 2 sophisticated ventilators & well equipped NICU with 15 beds, dedicated Paediatricians are giving life to innumerable number of moribund babies.

Diagnostics

Colposcopy:

With B'orze Colposcope, our senior gynaecologist Prof. Dr. Udayan Sarkar, MD takes a close-up view of the cervix, detect abnormal areas on the cervix and the area near the cervix. A colposcopy may be used: when patient has abnormal Pap or HPV test results, when cervix looks abnormal during a GYN exam, when you need to find the cause of unexplained bleeding or other problems, or, whether more tests or treatments are needed. Biopsy can be taken from suspected area to confirm diagnosis. In most of abnormal looking cervix, immediate treatment like cryo therapy can be done. This clinic is open every Wednesday from 11.00 AM to 1.00 PM.

Pathology

New Ramkrishna Pathology is a name for well-equipped pathological laboratory with modern machinery that includes Mini VIDAS Full Auto Hormone Analyser, and dedicated pathologists and experienced lab technicians.

Ultrasonography:

With a high-tech ultra-modern USG machine- Aloka ProSound by Broadband Harmonic Technology, our experienced and senior radiologist Dr. Shankar Pradhan examines patients with high precision.

Infertility treatment:

➤ Computerised Laboratory for Hormone Estimation & Sperm Banking.

➤ Intra-Uterine Insemination through husband or sperm donor.

➤ Ultrasonography to measure and monitor growth of ovum.

➤ Diagnosis and treatment for infertile patient through Video Hystero Laparoscope.
